

Mayur Masala Billing - Test Results

Run date: 5 Oct 2026 | Final code (branch simplify-manual-billing) | 118 checks: 118 passed, 0 failed

Suite	Checks	Passed	Failed
Bill page	58	58	0
Dashboard	20	20	0
Home	2	2	0
Items page	3	3	0
Helpers	9	9	0
Printer link	2	2	0
Database	16	16	0
Print receipt	7	7	0
Build	1	1	0
Total	118	118	0

#	Suite	Area	Test executed	Result
1	Bill page	Print Bill (new bill)	saves bill -> saves lines -> THEN prints that same bill id, once	PASS
2	Bill page	Print Bill (new bill)	discount is in RUPEES: stored as an amount (percent 0) and total = subtotal - discount	PASS
3	Bill page	Print Bill (new bill)	Save Draft stores status=draft and does NOT print	PASS
4	Bill page	Print Bill (new bill)	if saving lines fails: NO print, half-saved bill is deleted	PASS
5	Bill page	Print Bill (new bill)	buttons are disabled with an empty cart (cannot print an empty bill)	PASS
6	Bill page	Print Bill (editing a saved draft)	update bill -> replace lines -> print same id	PASS
7	Bill page	Print Bill (editing a saved draft)	a finalized bill cannot be reopened for editing	PASS
8	Bill page	Printer launch timing (browser tap-expiry) and double taps	tap still valid -> launches printer immediately, no extra prompt	PASS
9	Bill page	Printer launch timing (browser tap-expiry) and double taps	tap expired (slow network) -> bill saved, asks for one more tap, then prints exactly once	PASS
10	Bill page	Printer launch timing (browser tap-expiry) and double taps	double-tapping Print creates ONE bill and ONE print	PASS
11	Bill page	Quantity box	starts blank, can be typed and cleared freely, only digits accepted	PASS
12	Bill page	Quantity box	adding without a quantity is rejected (nothing added); with one it is added and the box goes blank again	PASS
13	Bill page	Quantity box	typed quantity is what gets saved and totalled (12 x 20 = 240); Enter in Qty adds the item	PASS
14	Bill page	Quantity box	+ and - buttons work from blank	PASS
15	Bill page	Remove item while billing	one tap removes just that line (even with qty 5), totals update, and it is not saved/printed	PASS
16	Bill page	Remove item while billing	removing the last item empties the cart and disables Save/Print	PASS
17	Bill page	Remove item while billing	removing a line from an edited draft is saved (line gone after Print)	PASS
18	Bill page	Smart suggestions	picking an item does NOT fill the price; cursor goes to Price; "Last price" is an optional tap	PASS
19	Bill page	Smart suggestions	typing your own price after picking an item works as normal	PASS
20	Bill page	Smart suggestions	frequent-item chips show on an empty name; tapping one fills the name only	PASS
21	Bill page	Smart suggestions	names from past bills (not in the catalog) are suggested too; typed price is never overwritten	PASS
22	Bill page	Smart suggestions	"Last price" hint appears when the typed price differs and taps to fill	PASS
23	Bill page	Smart suggestions	recent customers: de-duplicated, tap to fill, filters while typing	PASS
24	Bill page	Repeat bill (?copy=)	copies customer + items into a NEW bill (insert, not update), dated today; then returns to a clean page	PASS
25	Bill page	Repeat bill (?copy=)	unknown bill id -> back to a normal empty New Bill	PASS
26	Bill page	Delete draft from the editor	confirm -> deletes ONLY a draft row, then leaves the page	PASS
27	Bill page	Delete draft from the editor	cancelling the confirm deletes nothing	PASS
28	Bill page	Delete draft from the editor	database refuses (0 rows) -> stays on the draft, no false success	PASS
29	Bill page	Delete draft from the editor	no delete button on a brand-new bill	PASS

#	Suite	Area	Test executed	Result
30	Bill page	Discount in rupees	cannot exceed the bill: total never goes negative	PASS
31	Bill page	Discount in rupees	a Rs. discount applies to the whole bill, with paise	PASS
32	Bill page	Round off to nearest Rs.	off by default; on -> total is a whole rupee, saved total is the rounded one, choice is remembered	PASS
33	Bill page	Round off to nearest Rs.	rounds after the discount, and rounding DOWN works (400.40 -> 400)	PASS
34	Bill page	Round off to nearest Rs.	reopening a rounded draft keeps round-off ticked	PASS
35	Bill page	Round off to nearest Rs.	a plain whole-rupee bill needs no round-off row	PASS
36	Bill page	Tap a line to edit it	change price + qty; totals and saved lines follow	PASS
37	Bill page	Tap a line to edit it	invalid price/qty is rejected; Cancel changes nothing	PASS
38	Bill page	Tap a line to edit it	editing a price so it equals another line merges them	PASS
39	Bill page	Undo remove	Undo puts the line back in the SAME position	PASS
40	Bill page	Undo remove	removing several then Undo restores them all; the - button at qty 1 is undoable too	PASS
41	Bill page	Undo remove	the Undo offer disappears by itself after ~6 seconds	PASS
42	Bill page	Resume an unfinished bill	survives leaving the page: banner -> Resume restores customer, items, discount; saving clears it	PASS
43	Bill page	Resume an unfinished bill	Discard clears it; Save Draft clears it	PASS
44	Bill page	Resume an unfinished bill	nothing to resume when the cart was empty, when it is older than 24h, or it belongs to another user	PASS
45	Bill page	Resume an unfinished bill	corrupt saved data is ignored, never crashes	PASS
46	Bill page	Resume an unfinished bill	editing a saved draft does not use / clobber the resume slot	PASS
47	Bill page	Reprint my last bill (start screen)	shows the last printed bill and sends it to the printer in one tap	PASS
48	Bill page	Reprint my last bill (start screen)	hidden when there is no previous bill, and not shown while editing a draft	PASS
49	Bill page	Auto-save new items to the catalog	printing saves ONLY names that are not already in the catalog (case/space-insensitive)	PASS
50	Bill page	Auto-save new items to the catalog	the same new item twice (different price / spacing / case) is saved once, tidy name	PASS
51	Bill page	Auto-save new items to the catalog	Save Draft does NOT touch the catalog; printing that draft later does	PASS
52	Bill page	Auto-save new items to the catalog	a bill with only catalog items saves nothing extra	PASS
53	Bill page	Auto-save new items to the catalog	"already exists" from the database is ignored: still prints, no error, no "added" message	PASS
54	Bill page	Auto-save new items to the catalog	any other failure (offline / no permission) never blocks printing and says nothing	PASS
55	Bill page	Auto-save new items to the catalog	printing does not WAIT for the catalog save (a save that hangs forever cannot delay the printer)	PASS
56	Bill page	Auto-save new items to the catalog	tells you what was added, and the new item is suggested straight away on the next bill	PASS
57	Bill page	Auto-save new items to the catalog	one new item -> names it in the message	PASS
58	Bill page	Auto-save new items to the catalog	a copied (repeat) bill with items missing from the catalog adds them too	PASS
59	Dashboard	Dashboard filters, search, totals	opens on Today: only today's bills; sales exclude cancelled + drafts; old drafts still counted	PASS
60	Dashboard	Dashboard filters, search, totals	date presets: Yesterday, All; and picking a date	PASS
61	Dashboard	Dashboard filters, search, totals	search by customer name and by bill number	PASS
62	Dashboard	Dashboard filters, search, totals	status tabs: Printed / Cancelled; Drafts tab ignores the date range and shows every draft	PASS
63	Dashboard	Dashboard filters, search, totals	draft rows show "Draft" (no bill number) and have NO print button; printed rows do	PASS
64	Dashboard	Delete drafts	row : confirm -> deletes that one draft (draft-only filter)	PASS
65	Dashboard	Delete drafts	declining the confirm deletes nothing	PASS
66	Dashboard	Delete drafts	"Clear old drafts" removes only drafts older than 7 days	PASS
67	Dashboard	Delete drafts	DB blocks it (0 rows) -> error toast, never a false "deleted"	PASS
68	Dashboard	Delete drafts	detail modal: Delete + Edit Draft (opens /bill/<id>)	PASS
69	Dashboard	Cancel a printed bill	reason is required; then updates status=cancelled ONLY for a printed bill	PASS

#	Suite	Area	Test executed	Result
70	Dashboard	Cancel a printed bill	"Back" leaves the bill untouched	PASS
71	Dashboard	Cancel a printed bill	a cancelled bill shows its reason, cannot be printed / re-cancelled, but can be repeated	PASS
72	Dashboard	Repeat bill	Repeat opens /bill?copy=<id>	PASS
73	Dashboard	Export to Excel (CSV)	Bills export: what is on screen, with items; Items export: merged item totals of printed bills only	PASS
74	Dashboard	Export to Excel (CSV)	nothing to export -> message, no file	PASS
75	Dashboard	Customer history	"All bills from this customer" -> that customer only, all time, with bills count + total spent; typing in search leaves it	PASS
76	Dashboard	Sales by staff	groups printed bills of the period by who made them (cancelled + drafts excluded)	PASS
77	Dashboard	Rupee discount + round-off display	list row shows Rs. off; detail shows Subtotal, Discount, Round off and Total that add up	PASS
78	Dashboard	Rupee discount + round-off display	old percent-discount bills still show their percent and no phantom round-off	PASS
79	Home	Today's sales on Home	owner sees today's printed total + count; backdated and older bills are not "today"	PASS
80	Home	Today's sales on Home	staff do not see sales or the dashboard button	PASS
81	Items page	Rename items	rename saves via update on that item id	PASS
82	Items page	Rename items	rejects a name that already exists (any case) and an empty name	PASS
83	Items page	Rename items	not permitted by the database (0 rows) -> honest error, no fake success	PASS
84	Helpers	bill helpers	numbers: sequential when present, id-suffix fallback, drafts labelled Draft	PASS
85	Helpers	bill helpers	billDay prefers the (backdated) billing_date, else the IST day of created_at	PASS
86	Helpers	bill helpers	search matches customer (any case) and bill number with or without prefix	PASS
87	Helpers	bill helpers	bills CSV: header, subtotal/discount/total, items text, quoting, formula-injection guard, BOM	PASS
88	Helpers	bill helpers	items CSV: merges same item across bills (case-insensitive), sorts by amount	PASS
89	Helpers	bill helpers	toCsv leaves plain negative numbers alone	PASS
90	Helpers	billTotals (how a bill adds up)	rupee discount + round-off derived	PASS
91	Helpers	billTotals (how a bill adds up)	old percent bills keep their % label and show no phantom round-off	PASS
92	Helpers	billTotals (how a bill adds up)	without items falls back to total + discount; odd legacy data (gap > 50 paise) is never shown as round-off	PASS
93	Printer link	Deep link format	deep link is exactly what the Bluetooth Print app expects	PASS
94	Database	Part 2 migration (real Postgres, RLS on)	part 2 runs on a database that already has part 1	PASS
95	Database	Part 2 migration (real Postgres, RLS on)	existing bills numbered oldest-first (Jan=1, Feb=2, Mar=3)	PASS
96	Database	Part 2 migration (real Postgres, RLS on)	re-running part 2 is safe: numbers unchanged	PASS
97	Database	Part 2 migration (real Postgres, RLS on)	a new DRAFT gets no bill number	PASS
98	Database	Part 2 migration (real Postgres, RLS on)	printing a draft assigns the NEXT number (4)	PASS
99	Database	Part 2 migration (real Postgres, RLS on)	a bill saved directly as printed gets the next number (5)	PASS
100	Database	Part 2 migration (real Postgres, RLS on)	deleting a draft leaves NO gap in numbering (next is 6)	PASS
101	Database	Part 2 migration (real Postgres, RLS on)	cancel works and keeps its bill number	PASS
102	Database	Part 2 migration (real Postgres, RLS on)	status 'paid' is still rejected	PASS
103	Database	Part 2 migration (real Postgres, RLS on)	a PRINTED bill cannot be deleted (RLS)	PASS
104	Database	Part 2 migration (real Postgres, RLS on)	a CANCELLED bill cannot be deleted (RLS)	PASS
105	Database	Part 2 migration (real Postgres, RLS on)	a DRAFT can be deleted (RLS)	PASS
106	Database	Part 2 migration (real Postgres, RLS on)	printed + cancelled bills still exist	PASS

#	Suite	Area	Test executed	Result
107	Database	Part 2 migration (real Postgres, RLS on)	(admin) sanity	PASS
108	Database	Part 2 migration (real Postgres, RLS on)	app user can rename an item (update policy)	PASS
109	Database	Part 2 migration (real Postgres, RLS on)	bill numbers are unique	PASS
110	Print receipt	Receipt endpoint	old 10% bill prints IDENTICALLY to the original code	PASS
111	Print receipt	Receipt endpoint	old no-discount bill prints IDENTICALLY (no phantom round-off)	PASS
112	Print receipt	Receipt endpoint	rupee discount line printed, no round-off line	PASS
113	Print receipt	Receipt endpoint	round-off down printed as -Rs.0.40	PASS
114	Print receipt	Receipt endpoint	round-off up printed as +Rs.0.40	PASS
115	Print receipt	Receipt endpoint	a large mismatch is NOT presented as round-off	PASS
116	Print receipt	Receipt endpoint	cancelled bill still stamped	PASS
117	Printer link	Deep link function	Code identical to the original version (line-by-line diff)	PASS
118	Build	Production build	npm run build completes with no errors	PASS
